

Dear Preschool Director:

During the past 35 years, Canton Ballet's **Joy of Movement** program has reached hundreds of children. Through the language of movement, children discover imaginative uses of their bodies while developing good posture, coordination, rhythm, self-confidence and the ability to work with other children.

A series of Outreach classes is available to your students through Canton Ballet. Julie Mizer-Grasse, our children's specialist will come to your school for eight weekly classes. The 30 minute dance class costs \$360 for children ages 3 to 5 years.

Experience has shown that these classes fulfill important needs of preschool children to move with grace and to exercise their imaginations. We urge you to consider introducing your students to the **Joy of Movement** through this program.

Sincerely,

Cassandra Crowley
Artistic Director
